Berlin

## Education

### Full Stack Web Development

12 Weeks Intensive Bootcamp  
SPICED Academy, Berlin | 2021

### High School Diploma

Ohel-Shem, Israel | 2007

## Languages

### English

Full proficiency

### German

Full proficiency

### Hebrew

Native

## Selected Projects

### Lou&You

As part of my work with Lou&You, developing a web app for the Society for Innovation in Gender Equality e.V.

The app aims to help those who are affected by sexual or domestic violence, by centralizing and personalizing helpful information.

Technologies used: **Next.js with Typescript, Storyblok CMS and Bulma.**

### Think! healthcare

As part of my work for the MedTech company "Lohmann und Birkner", this web app aims to digitize the health treatment process in Germany. This app will allow patients to connect with specialist doctors, enhance communication, share documents and guide patients with important medical steps.

Technologies used: **Next.js with Typescript, API routes and NextAuth.js**

### Core Skills

JavaScript ES6  
React.js  
Next.js  
Typescript  
Git  
HTML/CSS

### Additional Skills

Node.js, Express  
SQL  
jQuery  
Firebase  
Jest

### Soft Skills

Honest  
Communicative  
Team Player  
Curious  
Great Cook

## Work Experience

### Frontend Web Developer

**Lohmann und Birkner Health Care Consulting GmbH | 01.23 - Present**

Working on a Next.js with REST API medical app, which will better connect patients with the doctors they require.

### Freelance Web Developer

**06.2021 - Present**

### Full-stack Web Developer

**Society for Innovation in Gender Equality e.V. | 12.21 - 11.22**

- Building a full-stack React app that assists people who are affected by violence
- Working for an NGO on a social project
- Implemented headless CMS

### Co-Owner

**Hamra Berlin | 2019 - 2020**

- Operated a pop-up restaurant and catering business
- Created seasonal menus and organized employees' schedules
- Coordinated logistics and managed social media
- Solved problems in a high-pressure setting
