Version Control Systems: Git, GitHub

High School Diploma

Ohel-Shem, Israel | 2007

Languages

English

Full proficiency

German

Full proficiency

Hebrew

Native

Selected Projects

Lou&You

As part of my work with Lou&You, developing a web app for the Society for Innovation in Gender Equality e.V.

The app aims to help those who are affected by sexual or domestic violence, by centralizing and personalizing helpful information.

Technologies used: **Next.js** with **Typescript**, **Storyblok CMS** and **Bulma**.

SoundCloud Winamp Player

Reconstruction of the iconic Winamp audio player.

This audio player connects to the Soundcloud API and uses it to stream audio. The user can view the music details, create a custom playlist, and share what they are listening to on social media.

This project was selected by the Spiced Academy

staff to be showcased on their website and social media.

Technologies used: **React.js**, **Redux**, **Node.js/Express**, **Postgres SQL**.

Core Skills

JavaScript ES6
React.js
Next.js
Typescript
Git
HTML/CSS

Additional Skills

Node.js, Express
SQL
jQuery
Three.js
Firebase
Jest

Soft Skills

Honest
Communicative
Team Player
Curios
Great Cook
